

Listing of Claims:

1. (Currently Amended) A method for providing at least one search result responsive to a search query comprising at least one search query term, the method comprising:

parsing a set of pages for a plurality of text and non-text indexable elements;

storing the plurality of text and non-text indexable elements in a computer readable medium as a plurality of records;

receiving [a] the search query to produce at least one qualifying to request a stored record;

searching said plurality of records to determine text and non-text indexable elements that correspond to the search query;

transmitting a text representation of the qualifying record to a user at least one text element representation of said query result to a user; and

transmitting a representation of a non-text object related to the text representation of the qualifying record to the user at least one non-text element representation of said query result to said user.

2. (Previously Presented) The method of claim 1, wherein the non-text elements comprises an image.

3. (Previously Presented) The method of claim 1, wherein the record comprises a Webpage.

4. (Cancelled)

5. (Cancelled)

6. (Currently Amended) The method of claim 1, wherein the ~~object~~ non-text indexable element comprises a sound file.

7. (Currently Amended) A method for indexing records in an index of the world wide web, the method comprising:

receiving a record from the world wide web;

~~searching the record for a non-text object;~~

parsing the record for associated text and a non-text indexable elements;

~~creating a representation in association with the record~~ representations of the parsed text and non-text indexable elements; and

storing the ~~representation~~ representations in association with the record as a one or more word location pairs. and;

~~making an entry for the record in the index including the representation~~

8. (Previously Presented) The method of claim 7, wherein the non-text indexable element comprises an image.

9. (Previously Presented) The method of claim 7, wherein the record comprises a Web page.

10. (Cancelled)

11. (Cancelled)

12. (Currently Amended) A system for providing at least one search result responsive to a search query comprising at least one search query term, the system comprising:

a parse module for parsing the at least one record for text and non-text indexable elements;

an indexing module for indexing the text and non-text indexable elements;
a query module for receiving the search query, the search query requesting
at least one ~~record~~ text and non-text indexable element in the world wide web;
a search module for locating ~~at least one qualifying record~~ corresponding
text and non-text indexable element relating to the search query; and
a transmitter for transmitting a representation of [a] the non-text object
indexable element and related to a text representation corresponding to the search query
result of each qualifying record ~~the~~ to a user.

13. (Previously Presented) The system of claim 12, wherein the object
comprises an image.

14. (Previously Presented) The system of claim 12, wherein the record
comprises a Web page.

15. (Cancelled)

16. (Cancelled)

17. (Previously Presented) The system of claim 12, wherein the object
comprises a hyperlink to a sound file.

18. (Currently Amended) A system for indexing records in an index of an
information network, comprising:

a parser for parsing a record for text and non-text indexable elements;
a database for storing ~~a record from the world wide web~~ said text and non-
text indexable elements;
~~an indexing module for searching the record for a link to a non-text object;~~

an query module for searching the database for a link to said non-text
indexable elements appearing in the record;
a subsystem for creating a representation of the text and non-text
indexable elements object;
a subsystem for storing the representation in association with the record;
and
a subsystem for making an entry for the record in the index including the
representation.

19. (Previously Presented) The system of claim 18, wherein the object
comprises an image.

20. (Previously Presented) The system of claim 18, wherein the record
comprises a Web page.

21. (Cancelled)

22. (Cancelled)
